Author Index

Alía, J.M.
— and Edwards, H.G.M.
Ion solvation and ion association in lithium trifluoromethanesulfonate solutions in three aprotic solvents. An FT-Raman spectroscopic study 185
An, C., see Gao, T. 225
Aust, J.F., see Nicholson, M.A. 157
Ayora-Cañada, M.J.
— and Lendl, B.
Study of acid–base titration of succinic and malic acid in aqueous solution by two-dimensional FTIR correlation spectroscopy 297

Bain, C.D., see Beattie, D.A. 109
Beattie, D.A.
—, Haydock, S. and Bain, C.D.
A comparative study of confined organic monolayers by Raman scattering and sum-frequency spectroscopy 109
Bell, W.C., see Nicholson, M.A. 157
Berghmans, T., see Kip, B.J. 75
Booksh, K.S., see Nicholson, M.A. 157
Brown, D.R., see Edwards, H.G.M. 213
Budevska, B.O.
Minimization of optical non-linearities in Fourier transform-infrared microspectroscopic imaging 37

Chong, C.S., see Malek, M.A. 181
Ci, Y., see Gao, T. 225
Collette, T.W.
Preface 1
Crisan, D., see Jitianu, M. 307

Dale, J.A., see Edwards, H.G.M. 213
Delmas, C., see Ribeiro-Claro, P.J.A. 29
Del Zoppo, M.
Vibrational spectroscopy of polyconjugated systems and molecular nonlinear optical responses 63

Dent, B.B., see Stuart, B.H. 233
Dobson, K.D.
—, Roddick-Lanzilotta, A.D. and McQuillan, A.J.
An in situ infrared spectroscopic investigation of adsorption of sodium dodecylsulfate and of cetyltrimethylammonium bromide surfactants to TiO_2, ZrO_2, Al_2O_3, and Ta_2O_5 particle films from aqueous solutions 287
Drożdżewski, P.
— and Kordon, E.
Isotope effects in the far-infrared spectra of histamine complexes with palladium(II) 243

Edwards, H.G.M.
—, Brown, D.R., Dale, J.A. and Plant, S.
Raman spectroscopy of sulfonated polystyrene resins 213
Edwards, H.G.M., see Alía, J.M. 185
Eilertsen, J.L.
—, Rytter, E. and Ystenes, M.
In situ FTIR spectroscopy during addition of trimethylaluminium (TMA) to methylaluminoxane (MAO) shows no formation of MAO–TMA compounds 257

Forbes, S., see Stuart, B.H. 233

Gao, T.
—, Ci, Y., Jian, H. and An, C.
FTIR investigation of the interaction of tumor cells treated with caffeic acid and chlorogenic acid 225

Han, S.W., see Lee, S.J. 265
Hardgrove, M., see Sommer, A.J. 93
Hartwig, H., see Kip, B.J. 75
Haydock, S., see Beattie, D.A. 109
Hodgson, G., see Stuart, B.H. 233
Huys, M., see Kip, B.J. 75

Inoue, H., see Matsushita, A. 171

PII: S0924-2031(00)00105-3

Jian, H., see Gao, T. 225
Jitianu, A., see Jitianu, M. 307
Jitianu, M.
—, Jitianu, A., Zaharescu, M., Crisan, D. and Marchidan, R.
Erratum to "IR structural evidence of hydrotalcites derived oxidic forms" [Vibrational Spectroscopy 22 (2000) 75–86] 307
Jovanovski, G., see Naumov, P. 201

Kantarci, Z., see Sertbakan, T.R. 249
Kasap, E., see Sertbakan, T.R. 249
Kim, K., see Lee, S.J. 265
Kip, B.J.
—, Berghmans, T., Palmen, P., Van der Pol, A., Huys, M., Hartwig, H., Scheepers, M. and Wienke, D.
On the use of recent developments in vibrational spectroscopic instrumentation in an industrial environment: quicker, smaller and more robust 75
Kordon, E., see Drożdżewski, P. 243

Lee, S.J.
—, Han, S.W., Yoon, M. and Kim, K.
Adsorption characteristics of 4-dimethylaminobenzoic acid on silver and titania: diffuse reflectance infrared Fourier transform spectroscopy study 265
Lendl, B., see Ayora-Cañada, M.J. 297

Malek, M.A.
— and Chong, C.S.
FTIR study of H_2O in polyallyl diglycol carbonate 181
Marchidan, R., see Jitianu, M. 307
Martoglio Smith, P.A.
Infrared microspectroscopy mapping studies of packaging materials: experiment design and data profiling considerations 47
Matsukawa, K., see Matsushita, A. 171
Matsushita, A.
—, Ren, Y., Matsukawa, K., Inoue, H., Minami, Y., Noda, I. and Ozaki, Y.
Two-dimensional Fourier-transform Raman and near-infrared correlation spectroscopy studies of poly (methyl methacrylate) blends 1. Immiscible blends of poly(methyl methacrylate) and atactic polystyrene 171
McQuillan, A.J., see Dobson, K.D. 287
Meier, R.J.
The LAM-1 Raman frequencies in α-bromoalkanes and α,ω-dibromoalkanes 165
Melikova, S.M., see Rutkowski, K.S. 277
Minami, Y., see Matsushita, A. 171
Myrick, M.L., see Nicholson, M.A. 157

Naumov, P.
— and Jovanovski, G.
Vibrational study of two novel cesium saccharinates. Spectroscopic evidence for organic molecule embedded in ionic salt 201
Negri, F.
Vibrational force fields and spectra of fluorinates stilbenes and their ions from ab initio and semi-empirical quantum-chemical calculations 125
Nicholson, M.A.
—, Aust, J.F., Booksh, K.S., Bell, W.C. and Myrick, M.L.
Kinetic and spectroscopic profiles of three pyridine complexes at a silver electrode using surface-enhanced Raman scattering and evolving factor analysis 157
Noda, I., see Matsushita, A. 171

Ozaki, Y., see Matsushita, A. 171

Palmen, P., see Kip, B.J. 75
Plant, S., see Edwards, H.G.M. 213
Pouchan, C., see Ribeiro-Claro, P.J.A. 29

Ren, Y., see Matsushita, A. 171
Ribeiro-Claro, P.J.A.
—, Teixeira-Dias, J.J.C., Delmas, C. and Pouchan, C.
Conformational study of α,2-dimethylstyrene: Raman and FT-IR spectra and ab initio calculations 29
Richardson, H.H., see Thomas, M. 137
Roddick-Lanzilotta, A.D., see Dobson, K.D. 287
Rutkowski, K.S.
—, Melikova, S.M. and Shchepkin, D.N.
Effect of liquid to solid phase transition on rotational and vibrational broadening of vibrational bands of CF_3CL in Xe solutions 277
Rytter, E., see Eilertsen, J.L. 257

Sağlam, S., see Sertbakan, T.R. 249
Scheepers, M., see Kip, B.J. 75
Sertbakan, T.R.
—, Sağlam, S., Kasap, E. and Kantarci, Z.
Infrared spectroscopic study of the Hofmann-dadn-type clathrates: M(1,10-diaminodecane)Ni$(CN)_4 \cdot 1{,}5G$ (M = Co, Ni or Cd; G = chlorobenzene, 1,2-, 1,3- or 1,4-dichlorobenzene) 249
Shchepkin, D.N., see Rutkowski, K.S. 277
Shkrabo, D.M.
Vibrations of carbon monoxide–ethylene alternating copolymer in crystals: theoretical study 101
Sommer, A.J.
— and Hardgrove, M.
Attenuated total internal reflection infrared microspectroscopy for the analysis of trace solutes in aqueous solutions 93
Stuart, B.H.
—, Forbes, S., Dent, B.B. and Hodgson, G.
Studies of adipocere using diffuse reflectance infrared spectroscopy 233

Surin, L.A.
Intracavity millimeter wave spectroscopy of molecules in excited vibrational states 147

Tassaing, T.
A vibrational spectroscopic study of water confined in benzene from ambient conditions up to high temperature and pressure 15
Teixeira-Dias, J.J.C., see Ribeiro-Claro, P.J.A. 29
Thomas, M.
— and Richardson, H.H.
Two-dimensional FT-IR correlation analysis of the phase transitions in a liquid crystal, 4′-*n*-octyl-4-cyanobiphenyl (8CB) 137

Torii, H.
Vibrational modes and electronic structural changes generating infrared intensities in charged conjugated π-electron systems: a case study on the chrysene radical cation 3

Van der Pol, A., see Kip, B.J. 75

Wienke, D., see Kip, B.J. 75

Yoon, M., see Lee, S.J. 265
Ystenes, M., see Eilertsen, J.L. 257

Zaharescu, M., see Jitianu, M. 307
